(removed for PSAB construction)

The image shows the interior of a two-bay garage. The left bay contains a workbench with a blue cabinet, a yellow bulletin board, and various tools and supplies. A yellow hard hat is visible on the left wall. The right bay is mostly empty, with a red Coca-Cola vending machine, a wooden chair, and a blue metal cart. A stack of orange and white striped traffic cones is also visible. The garage has a concrete floor and a drop ceiling with fluorescent lights. The walls are made of brick and white-painted brick.
